

# Suit

Vitra

## Shaping water by design

The Suit Collection, designed by Design Studio VitrA, uses geometric shapes and transforms them into an elegant and original design.

Suit

Design Studio Vitra

## Complementary details

The design language of the collection combines round and square lines to create a sculptural appearance thanks to the slim body.

The elegance of the control lever complements the body and is easy to use thanks to its ergonomic design. The on-off lever is positioned on the side or on the top to satisfy different user preferences.

Design Studio Vitra

## Colour alternatives

The Suit Collection perfectly complements the harmony in the bathroom with chrome, glossy black, soft copper and soft gold colour alternatives that will look new for years.

Suit

Design Studio Vitra

## Freedom of choice in the bathroom

The collection includes every detail necessary to design a bathroom where all the parts are in harmony, and it offers a range of different colours, sizes and solutions. The Suit Collection makes bathroom design a unique experience.

Suit

Design Studio Vitra

## Stylish and functional

Suit mixers are available in different height options to create a perfect harmony with every type of washbasin. They support different usage preferences thanks to the ergonomic on-off handle positioned on the side or top.

The tarnish-and-corrosion-resistant coating will maintain its shine for many years.

Faucets with the European Unified Water Label help protect our planet and our future by saving water.

## Unrivalled harmony in the showering area

Suit's unique design language and colour options create a special ambience in all bathroom areas. Bathtub mixers that shape water with their rectangular spout, built-in mixers and diverters compatible with VitrA's flush-mounted solutions, shower elbows and shower heads all reflect a timeless design language. This dominates every area of the bathroom and ensures harmony among all the elements.
